

We are pleased to see Surgical Innovations (SI) feature on the BBC this week, after Business and Money Correspondent Danni Hewson spent the day in theatre with Clinical Advisory Board (CAB) members James Halstead and Professor Mike McMahon.

As part of the news piece, which was filmed at the Nuffield Hospital in Leeds, Danni also interviewed Graham Bowland, Chief Executive Office at Surgical Innovations here at our head office in Leeds.

The news story can be viewed on the BBC iPlayer; however we will be posting a link to the story in the next few days.
