

Graham Bowland, Chief Executive Officer (CEO) of Surgical Innovations (SI) has recently attended the 59th congress of AORN (Association of periOperative Registered Nurses).

AORN - the largest surgical products tradeshow in North America – represents the interests of more than 160,000 perioperative nurses and provides nursing education, standards, and services that enable optimal outcomes for patients undergoing operative and other invasive procedures.

The congress allowed SI to meet with international nurses, provide updates on our product development programme and attend lectures on upcoming technologies and latest developments in the healthcare industry.
